 (name and address)

Date work to begin: _____ Date work to be completed: _____

THIS SECTION FOR DRIVEWAY APPROACHES AND SIDEWALK WORK ONLY.

FOR DRIVE APPROACHES: Please check type of driveway work. Note: A separate permit is required for any driveway work on private property. This permit can be obtained from the Building Inspector, at Village Hall.

New Driveway Replacement of Driveway Alteration/Widening of Existing Driveway

Curb Opening: Has the curb opening already been created? _____ if so, how? (i.e. was it created when the curb and gutter was originally installed on the street, was the curb head broken off, vertically or horizontally sawed off?)
 Please describe existing curb opening, or planned alteration:

If curb has been previously broken or vertically sawed off, the Village DPW must inspect the curb opening prior to beginning of any work. If curb has been damaged, it may need replacement.

Are you abandoning an existing driveway? _____

FOR SIDEWALKS:
 Is the repair through your driveway? _____ (the sidewalk through drive apron area must be 7" in thickness)
 Is the repair work within the street right-of-way, private property, or both? _____

THIS PERMIT MUST BE DISPLAYED ON THE WORK SITE. DO NOT CONCEAL ANY WORK UNTIL IT HAS BEEN APPROVED BY THE VILLAGE SUPERINTENDENT OR BUILDING INSPECTOR.

SPECIAL PROVISIONS FOR PERMIT TO WORK WITHIN THE PUBLIC RIGHT-OF-WAY

(Village Superintendent to check all that apply)

1. The Village Superintendent must be contacted with your schedule of work, prior to beginning excavation. Call Todd Schiller at 262-279-5728.
2. A Certified Check, or Cashier's Check, in the amount of \$2,000 shall be filed with the Village Treasurer. This check will be returned after the Village Superintendent has inspected and approved the restoration of the right-of-way.
3. All applicants shall properly guard all work within the right-of-way according to Part 6 of the FHA Manual on Uniform Traffic Control Devices, current edition, including but not limited to lighted barricades after dark.
4. Aggregate Slurry Backfill must be used under all paved areas. The mix shall match that as specified in the current edition of the Standard Specifications for Sewer & Water Construction in Wisconsin.
5. All work under pavement must be bored. If boring tool gets lodged under any pavement, the Village Superintendent must be contacted at 262-279-5728, prior to open cutting street. In that event, Items No. 4 and 7 must be followed.
6. All work under the drip line of any trees shall be bored. Any tree damaged by the applicant's operations shall be treated by a professional arborist to remove broken branches. Trees will be monitored for 24 months following the project. Trees which suffer more than 30% damage to branches or die-back from root damage shall be replaced at the applicant's expense.
7. All excavations in permanently improved streets shall be made by saw cuts around the perimeter of the excavation. After excavation, prior to patching, perimeter must be re-sawed one foot back onto undisturbed subgrade. All pavement types must be restored to previously existing condition. Where concrete pavement has been overlaid with asphalt pavement, concrete pavement must be replaced and doweled in place as directed by the Village Superintendent. It shall then be overlaid with asphalt pavement.
8. Tunneling of curb shall not be allowed. Curb must be removed and replaced if curb is exposed in the trench. When replacing curb, it must be tied to existing curb with 2 driven 1/2" tie rods in the pan of the gutter, at both ends of the pour. No curb sections shall be smaller than 4 ft. in length. Curb shall be placed over a four-inch (4") road gravel base.
9. The pavement must be protected from any scarring. Dumping of materials on the pavement, whether it is sand, gravel, spoil material, or other construction material is prohibited. No track equipment shall be off-loaded directly on the pavement. It must either be off-loaded onto planks, or onto a non-paved surface.
10. Applicant is responsible for contacting owners and/or tenants, regarding disruption of foot or vehicular traffic.
11. Detour permit may be required from the County or WisDOT.
12. Permit to excavate in highway right-of-way may be required from the County or WisDOT.
13. The terrace must be restored to its original condition. If terrace currently has grass, it must be restored with 4" of topsoil, seed, fertilizer, and mulch.
14. Other conditions _____

Acceptance of this permit implies that the Owner and Contractor, jointly and severally, agree that the work covered by this permit shall be performed in strict accordance with all the provisions of the Municipal Code, all specifications of the Village of Genoa City, and the laws of the State of Wisconsin pertaining to the above described work. Applicant also agrees to any special conditions listed here on, and agrees to keep and save the Village free and harmless from any damages or claims against it by reason of any failure, fault or neglect of the applicant, the applicant's agent, servants, or employees in the execution of the work or exercise of the privilege for which such permit is granted. Applicant guarantees all work and shall maintain it for 24 months following its completion.
